Original Brands

EYEVAN

eyevaneyewear.com

concept:

The first fashion eyewear brand in Japan started in 1972 under a concept of "Eyewear for dressing as a fashion accessory". The collection was temporarily paused, but restarted in 2018. It has evolved into a brand offering a wide range of eyewear to meet every objective and situation.

The collection, with contemporary interpretation on the base of the huge archives including past designs, molds and manufacturing methods EYEVAN holds, is made up of products that are compatible with designs reflecting the times and productivity as an industrial product.

eyevan7285.com

concept:

Eyewear that does not have technical restrictions in the manufacturing process and combines traditional manufacturing methods and new technologies with free ideas that are not caught in the past. Established the unique identity with beautiful details and highly sophisticated designs.

Eyewear, created by hand work of limited artisans even in Sabae with high technique, and carefully made through about 400 processes of work, is technologically crafted to detail and can be said to be modern craftwork rather than industrial product.

Original Brands

IO eyevan

10eyevan.com

concept:

Based on the idea that a beautiful tool is a collection of beautiful parts. New screws are developed and each part is fundamentally reviewed for designing eyewear. Thus, this eyewear brand is created by an approach that has never been before. Hirotaka Nakagawa, designer, embodied the design and functionality that seems to be purely beautiful as a concept of "Beautiful Tool" based on his aesthetic sense.

Eyevol

eyevol.com

concept:

New category eyewear brand with EYEVAN' s universal design plus scene-less functionality.

Combining the latest machine-made with manual work by Japanese craftsmen, realized durability and lightness corresponding to the active scenes.

Trust from the top athletes is also deep, and we have an advisory staff contract with Momoko Ueda, pro golfer, and more players.

E5 eyevan

e5eyevan.com

concept:

E5 collection pursues functionality directly influenced by the idea of biology that "form follows role and purpose" .

Collaboration Brands

TAKAHIROMIYASHITATheLeftEye.

concept:

Takahiro Miyashita, designer of TAKAHIROMIYASHITATheSoloist. and EYEVAN Inc. collectively launch eyewear brand, TAKAHIROMIYASHITATheLeftEye. in 2021. The new EYEVAN brand features designs by Takahiro Miyashita with EYEVAN manufacturing.
